SUMMARY

Technically driven and highly motivated Computer Science Engineering undergraduate with a strong foundation in Java, Python, C, SQL, and front-end technologies including HTML, CSS, JavaScript, and React.js. Hands-on experience in Machine Learning, full-stack development, and database-driven applications through academic and personal projects. Passionate about building user-friendly, scalable solutions and applying technology to real-world problems. Seeking an opportunity to contribute to a growth-oriented organization while continuously developing technical and professional expertise.

TECHNICAL AND BEHAVIORAL SKILLS

- Programming Languages: Python, Java
- Web Technologies: HTML, CSS, JavaScript, React.js
- Databases: MySQL, MongoDB.
- Good Communication Skills and good listener.
- Adaptability to situation.

EDUCATION

B. Tech in Computer Science and Engineering **2022-2026**

Marri Laxman Reddy Institute of Technology and Management | **CGPA: 8.11**

Intermediate **2020-2022**

Narayana Junior College MPC | **Percentage: 87.8**

Secondary School (SSC) **2019-2020**

Narayana High School | **CGPA: 10.0**

PROJECTS AND INTERNSHIPS

AI-Driven Cybersecurity Threat Detection in Cloud Environments

- Developed an AI-Driven Cybersecurity Threat Detection in Cloud Environments system using Machine Learning and anomaly detection techniques.
- Implemented real-time monitoring and threat analysis to identify suspicious activities, enhance cloud security, and generate instant security alerts.

Real Time Chat Application

- A dynamic real-time chat application built with React, Node.js, Socket.io, and Tailwind CSS, deployed on Vercel, featuring instant messaging, secure user authentication, and a modern responsive UI for seamless cross-device communication.
- Real Time Chat Application: **Live Demo**

Deep Learning Internship at Central Institute of Tool Design (CITD)

- Gained hands-on experience in building and training deep learning models for real-world applications**.**

Google Android Developer Virtual Internship (EduSkills)

- Learned to design and develop Android applications using modern tools and best practices.

Java Full Stack Development (EduSkills):

- Acquired skills in developing end-to-end web applications using Java for both frontend and backend.

CERTIFICATES

- **SAP Certified - SAP Generative AI Developer**
- **ServiceNow Certified Application Developer**
- **Smart Interviews - DSA Certification**
